## **AMENDMENT UNDER ARTICLE 19**

Dear Sir:

In response to the Search Report dated 27 September 2005, please amend the above-identified application as follows.

## In The Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

- 1. (Currently Amended) An apparatus for radially expanding and plastically deforming an expandable tubular member, comprising:
  - a support member;
  - a cutting device for cutting the tubular member coupled to the support member; [and] an expansion device for radially expanding and plastically deforming the tubular member coupled to the support member;
  - a locking device for locking the position of the tubular member relative to the support member; and
  - an actuator for displacing the expansion device relative to the support member; wherein the actuator comprises:
